Surface grinding machine including delivery and installation for ACME Corp

Quote recipient ACME Corp Attn: Purchasing / Engineering USA	Vendor Hartwell Industrial Tools, Inc. Cleveland, OH, USA Email: sales@hartwell-tools.example
--	---

Dear Sir or Madam,

Thank you for your inquiry. We are pleased to submit our quote below for an industrial-grade grinding machine, including delivery, setup and initial commissioning.

1. Quote items

Item	Description	Qty	Unit Price	Total
1	Grinding machine HW-GS 450 Stationary grinding machine for industrial machining processes, incl. machine base, safety guard, dust extraction port and standard equipment.	1 ea.	\$15,000.00	\$15,000.00
2	Delivery and installation Transport, rigging, mechanical setup, functional testing and brief on-site operator training.	1 lump sum	\$2,000.00	\$2,000.00
Subtotal (net)				\$17,000.00
plus sales tax (est. 8.25%)				\$1,402.50
Total (gross)				\$18,402.50

2. Quality description

The grinding machine offered is designed for continuous industrial use. The machine frame is built for high torsional rigidity and designed for smooth running, reproducible machining results and safe operation. Precisely guided grinding units, enclosed drive components and a robust guarding and dust extraction concept support a consistently high surface quality. Before shipment, a functional and safety test is performed, including a test run, visual inspection of all safety-relevant components and documentation of the setting values.

3. Certification and compliance

OSHA 29 CFR 1910.212 / .215	The machine is delivered in accordance with the applicable OSHA machine-guarding requirements, incl. abrasive wheel guarding and a manufacturer's declaration of conformity.
ANSI B11.0	Risk assessment and inherently safe design according to the principles of machine safety.

NFPA 79	Electrical equipment of industrial machinery, incl. protective and control components in accordance with the relevant requirements.
Quality management	Manufacturing, final inspection and documentation follow a quality-assured process; test report and operating manual are included.

4. Delivery and payment terms

Lead time	approx. 6-8 weeks after receipt of order and technical clarification
Delivery	FOB destination, to point of use by arrangement, including installation and initial commissioning
Payment terms	Net 30 from receipt of invoice
Warranty	12 months from commissioning, excluding wear parts and improper use
Quote validity	30 days from quote date

We look forward to hearing from you and are always happy to assist with any technical questions.

Sincerely,
Hartwell Industrial Tools, Inc.
